LIBRARY PROGRAMS SERVICE

VOL. 4 , NO. 15

OCTOBER 1983

LIST OF SENATE PUBLICATIONS

Roger K. Haley, Librarian of the Senate, and Michael F. DiMario, Superintendent of Documents, are proud to announce a cooperative effort by the Senate Library and GPO's Library Programs Service to improve access to Senate publications. The Senate Library will compile a list of all Senate publications, beginning with the 98th Congress, and will make the list available to GPO. The Library Programs Service in turn will reproduce the list and distribute it to depository libraries as an attachment to Administrative Notes.

Senate hearings, committee prints, and miscellaneous publications will be listed in separate sequences and in numerical order by the unique number which the Senate assigns to each publication. The title and responsible committee or issuing body of each publication will be listed after the Senate number.

The first list, for January-June 1983, updated through mid-August, will be included in a forthcoming issue of Administrative Notes. Updates, listing new publications, will be prepared and issued twice a month. GPO and the Senate Library are issuing this list as a service to librarians and users in the belief that it will help them identify and locate these important publications.

NEW CLASSIFICATION HOTLINE NUMBER

The classification hotline has proved to be successful; and we plan to continue providing this service. The responsibility has been reassigned to one of our technicians, Christopher Dyer. The new number to call is area code (703) 557-2499. Ask for Chris Dyer.

We do ask that you limit hotline calls to recent problems.

ICC REPORTS VOLUMES 356 & 357

The Library Programs Service did not receive depository stock for Inter-state Commerce Commission Reports, Volumes 356 and 357. A request has been submitted for reprinting the two volumes; and the expected delivery date to LPS is October 5, 1983. These volumes are expected to be distributed to depository libraries by October 31, 1983.

RECENT MAP SURVEYS

Responses from depository libraries on Surveys 83-11 and 83-12, covering the selection of Defense Mapping Agency and Geological Survey maps, were due back at LPS on August 12th. A grace period was extended to libraries whose responses were late. Data entry of the results has been completed. Cut off date for responses received was September 15th. Libraries whose responses were received after that date will have their selections included in the next regular selection change cycle.

ACQUISITIONS UPDATE

Of the titles recommended by depository librarians for acquisition by LPS, some have already been acquired and efforts are underway on the others. The following list represents those titles which have been acquired and distributed by LPS. The shipping list and class numbers are included for each title; in the case of multiple issues, the last issue distributed is listed.

PUBLIC LAND STATISTICS

The following notice is from the Bureau of Land Management concerning the title, Public Land Statistics. The yearly issues have been and will continue to be distributed through the Depository Library Program; however, the BLM is making the back issues available in microfiche for those who wish to purchase them. These titles were distributed to the depository libraries; thus, the microfiche set will not be picked up by the Depository Library Program since, under law, we cannot distribute more than one copy of the publication.

Subject: Microfiche Copy of Public Land Statistics

Public Land Statistics, a government document, is published annually through the Government Printing Office by the U.S. Bureau of Land Management (BLM). It is a depository item and reports various kinds of statistics concerning the public lands of the U.S. Historically, this report has been an agency requirement and has been accomplished through reports under various titles. The reports of the General Land Office (now BLM) are currently entitled Public Land Statistics.

Issues of the Public Land Statistics have been prepared on microfiche by the BLM Service Center and are being made available for purchase. A total of 822 fiche are in the set and coverage is as follows:

General Land Office	
1927 - 1946	612 Fiche
Bureau of Land Management	
1947 - 1980	210 Fiche

All or any portion of the set may be purchased at \$1.00 per fiche, the standard copy fee.

Requests for orders or information may be directed to:

CLAIMS MADE FOR DAILY CONGRESSIONAL RECORD

The Daily Congressional Record and its Index are offered as one of our "automatic mail titles" and distributed under Item Number 994. When claiming missing issues, please ascertain whether or not the "missing" issue has been combined with another issue. The notice on the cover's upper right hand corner will indicate a combined issue, if such is the case.

AUTOMATIC MAIL TITLES

The titles listed below are currently being offered in the Depository Library Program as "automatic mail titles." These titles are distributed directly from the contractor and not from our LPS facility. Libraries may select any of these titles throughout the year without waiting for the selection update period. It usually take about six weeks for receipt of the publication after the title has been requested. All claims should be made on the "Depository Library Request for Information: GPO Form 3794," since these titles do not appear on shipping lists.

1983 SURVEY UPDATE

As of the end of August, there were 12 surveys issued by the Depository Library Program during 1983. Libraries should review and return surveys within the designated time if they wish to be assured of receiving their selections when they become available. Libraries that fail to return their response forms on time will have to wait until the next selection update period to request new publications. Below are listed the surveys.

U.S.M.S.P.B. DIGEST

The United States Merit System Protection Board Digest (MS 1.11: -, Item 290-K-04) has not been published since February 1983 due to budget constraints. The agency has recently resumed publication of this title and the new issue was scheduled to be printed in late August, and to be combined with issues for March, April, and May. This item, which was listed as discontinued in Appendix II of the June 1983 List of Classes, will be reactivated.
